Novi AMS®

Association Management Software
Built by Associations for Associations

Features that **solve problems**

Save Countless Hours of Staff Time

Association staff report saving 40 hours per week or more of unnecessary work.

intuit quickbooks®

Avoid manual data entry by utilizing our two-way sync with QuickBooks Online.

Foster Member Engagement

Our dynamic groups, responsive website & Member Compass™ keep members connected.

Focus on What's Important

We eliminate cumbersome workarounds that distract staff from their mission.

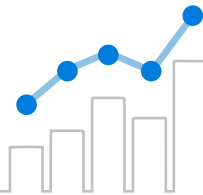

Associations create change. Novi AMS amplifies it.

Here are just a few of our integrations that will help you work smarter

intuit quickbooks · MailChimp · Map Dynamics · web scribble · Constant Contact® · intuit quickbooks Payments

🖥 Branded Website

Responsive Design
Front-end Editing
Dynamic Content

> " Trade associations struggle every day with association management software, and most problems are related to the inadequate accounting features built in. Novi's QuickBooks integration has changed the way we do business. The support team is responsive and listens to what we have to say. With Novi you're not just another account, as they work hard to understand what we do and how best to make the system work. "

Russ Webb
Atlanta Apartment Association
Staff Size: 16

Concierge Onboarding & Data Import

With your direction and assistance, our data import experts will import your members, events, and event attendees from your old system.

Front-end Website Migration

The Novi AMS content team will assess your current website and work with your team to ensure that your home page content, website navigation, events, news articles, and other pages meet the needs of your members. The goal is to deliver a presentation-ready website that tells your organization's story and fosters member engagement.

Custom Report Creation

We'll help by creating a few custom reports and groups to get you started.
